HURLED DOWN TO DEATH.

THIRTY-THREE PEOPLE KILLED AND OVER FIFTY INJURED.

A Bosion & Providence Train Crashes Through a Bridge Between Itosilndale and Forest Hill With Fearful Itesuits.

Narrow Escape From a Fire Horror. Boston, March 15.—The most horrible railroad needdent that has occurred in the vicinity of Boston since the holocaust at Revere happened this mording in the West Roxbury district. The 7 a. m. train on the Boston & Providence railread crashed through a highway bridge over South street, between Forest Hills and Roslindale stations, the accident resulting, so far as learned at present, in the death of thirty-three persons and the injury, in many cases very serious, of forty more. Most of the injured are said to be women. The cash of the falling bridge and cars was heard for some distance, and the Inhabitants flocked to the

The fire department was on the scene almost immediately, and prevented the horror of cremation. Doctors and ambulances were sent for in every direction, and many soon arrived. Their services were put in execution at once as the dend and wounded were taken out. Most of the dead and those of the injured who were able to be moved were sent to Roslindale and Dedham. The train was In charge of Conductor Tilden, who met a terrible death. He was found on the bank with his leg literally torn off; his abdomen separated and bowels protruding. He was also otherwise badly mangled. He died a few moments after being found.

The Globe's extra accident edition says: Eleven persons are known to be dead. Six of these are young girls going to work. Over thirty persons are seriously injured, many of them fatally, and are now in terrible agony. Assistant Conductor Drake is dying of his injuries. Sergeant Nnylor, of the West Roxbury division of mounted police, was killed. On Saturday last he renewed a \$3,000 policy on his life. Alice Burnett, of Roslindale, was killed. George Lord is badly injured. Webster Drake is seriously injured. P. S. Harvey is badly bruised. Drs. Hawes,

were simmoned to the scene of the accident. Dr. Hawes describes the scene as frightful in the extreme. When he mentioned the fact of the six girls being found lying in their own blood the strong man cried. He could give no names. The bodies of the dead were left and the injured cared for. Some were taken to the Massaelmsetts, others to the city hospital and some home. The excitement at the Providence depot is intense. Crowds are standing, eagerly walting for news. All are inquiring for relatives and friends. Employers were asking for their employes,

The wrecked train is one over the West Roxbury branch, and the scene of the accident is a third of a mile above Forest Hills station. The only cause so far as known is that the Bussy bridge gave way. There were on the tram, all heavily loaded. W. K. White was the engineer. Frank Irving said when he came along on the next train after the accident, he saw seventeen dead bodies lying near the track. The wounded will number a great many, and most of them are fatally injured. One car caught fire but was extinguished before any damage was done. Wrecking trains and a large number of surgeons and policemen are on the scene.

The facts as far as known at the present time are as follows: As the Dedham branch train, which leaves alliam at 7:05 and ar rives in Boston at 5 10, reached this bridge. the three rear cars were in some way thrown from the track and piled promiseuously down the embankment, which at this point is thirty or thirty-five feet high. This bridge crosses the marsh between Forest Hills station and Roslindale, and is approached on either side by embankments. The train is one of the largest and heaviest on the morning list, and this morning, as usunl, was heavily loaded The last three cars, the ones ti. .. left the track, were filled with passengers who had taken the train at Dedhum and the stations intervening between there and Forest Hill.

As soon as the accident occurred word way sent to the nearest station, and from there the superintendent of the road was notified by telegraph and messengers summoning surgical assistance were sent out on horseback. In the meantime a force of men set to work to relieve those who were pinned under the wreck, and a wrecking train was also made up and at once sent to the scene. A hundred and fifty mattresses were obtained at the city hospital and sent by the train which carried the surgeons and friends of the passengers. A gentlemm who left the scene at 9 o'clock said twenty bodies had been taken out, and that two of the injured had died. The number of persons injured, he says, was very large.

The bridge where the accident occurred was one over South street, and the gentleman says that the accident was due to the giving way of the structure under the weight of the train, awing doubtless to some hidden fault in the construction or the material used. The news spread like wildlire and the people thronged to the scene by thousands. In a short time the place was crowded with

people. The bridge is comparatively a new structure. The accident is attributed to several causes, but it is now stated that it was caused by a truck mider one of the cars becoming detached and striking against the abutments of the bridge. Almost immediately after the smoker fell flames began to pour out of the windows. The car had taken fire from the stove. The fire department, however, was promptly at the scene and soon extinguished

the flames. Among those reported killed are: Conductor Myron Tilden; Alice Burnett, of Roslindule; William Johnson, of Roslindale; Mrs. Cardinal, of Roslindale; Mr. Clapp, of West Roxbury; Miss Norris, of West Roxbury; Edard A. Norris, of Dedham; Edward Snow, of Spring Street station, West Roxbury; Wuldo V. Lailer, police officer, of Spring Street station; Lizzie Mandeville, of Dedhan; Lizzie Waltou, of Dedhan; William S. Bowman, of Dednam, hip and back; Frank Young, of West Roxbury.

The following were taken to the Massachusetts general hospital: John H. Drayton, aged sixty-three, cabinet maker, of Dedhain, compound fracture of the right arm; Edward Capen, son-in-law of Drayton, employed as bookkeeper nt 88 state street, sprained right ankle and complains of ribs; C. M. Schians, of Roslindale, aged thirtytwo, large scalp wound.

Those remaining at the hospital are: G, H. Lord, W. N. Drahe. The others going to their homes. Mary F. Young, of 105 East Union Park, Boston, arm ent but not badly; Herbert Billings, wounds on back of head; Arthur Cutter, of Dedham, hadly hurt on back; William McAllister, of Dedham, internally, but not seriously; Albert Burdette, slight; William F. Bownian, of Dedhain, seriously, probably fractured spine and in-ternally; Frank Spear, of Spring Street station, head hurt; - Stubbs, of Dedham, conductor, slightly injured in the head; Henry P. J. Earnshaw, of Spring Street station, seriously injured in the head; Miss Alice Page, of Dedham, slight injuries on the head.

The following persons are now at the city hospital, none of them fatally injured: George May, arm crushed; A. W. Chcever, scalp wound; Ben Favor, injury to shoulder; W. W. Smith, fractured thigh; Alice Shaw and James H. Noon, slight scalp wounds, treated at city hospital and sent home.

The engineer of the ill-fated train kept right on to Forest Hill and gave the nlarm. The officials of the road are nt the scene of thé disaster, and are doing all they can to alleviate the sufferings of the injured. The bodies of the killed are horribly mangled, some of them having been decapitated. Many others are fearfully crushed and mutilated, and their identity will be impossible unless some clue is found on their persons.

A LIST OF THE LIVING LADIES OF THE WHITE HOUSE.

While There is But One Ex-President Living, Eleven Ladies Who Have Presided Over the Executive Mansion Silli Survive-Other Washington Affairs.

WASHINGTON, March 15. - The recent presence in Washington at the same time of Mrs. Julia Dent Grant, widow of ex-President Grant, and of Mrs. Cleveland, the present lady of the White House, and of Miss Clevehand the last preceding lady who held that high position, has suggested that perlmps it might be as ngreeable to the ladies concerned as it certainly would be gratifying to those who might visit them if all the ladies now living who have nt any time presided at the executive mansion could assemble at the National capital and held a reception together at the White House.

Why not have it on the president's fiftieth birthday! If they could convene in this way there should be present:-

Mrs. Julin Gardiner Tyler, widow of President Tyler.

Mrs. Semple, her stepdaughter, now an inmute of the Louise Home, in Washington city, who during the period between her own mother's death, about September, 1842, and the marriage of her father in 1844, was the head of his household in the president's mansion, a longer period than her stepmother, held that place, who was married in June, 1844, and left the White House with her husband when his term expired, in March, 1845.

Mrs. James K. Polk, widow of President Polk, who immediately succeeded Mrs. Tyler. Mrs. Harriett Lane Johnson, the niece of President Buchanan, who was for four years

the mistress of the executive mansion.

Mrs. Patterson, the danghter of President Johnson, who, the wife of the latter being eld and not in very good health, jointly with her sister, Mrs. Stover, new dead, did the honors of the White house while their father was president.

Mrs. Julia Dent Grant, ex-President Grant's widow, who lived eight years in the White

Mrs. Rutherford B. Hayes, wife of ex-President Hayes, who was there four years, Mrs. Jmnes A. Garfield, widew of President Garlield, who lived only six months in the executive mansion.

Mrs. Eilen Arthur MeElroy, the late ex-President Arthur's sister, who was the lady or the White House during several months of each of the three years and a half while he was president.

Miss Rose Elizabeth Cleveland, who had the same place for fifteen months.

Mrs. Grover Cleveland.

This would indeed make a notable assembut one ex-president, Mr. Hayes, living, eleven ladies who have presided over the executive mansion survive.

There were four of these ladies-the two -in Washington the last week in Fehrnary, and Mrs. Grant and Mrs. and Miss Cleveland spent one evening together in the White Honse, the first time the three were ever together. The meeting was doubtless a most delightful one to all concerned. Mrs. Grant intla great admiration for President Cleveland before she ever met his wife, and last summer, when the two ladies just from Washington cailed on her at Long Branch within two weeks after the president's marringe, she eagerly exclaimed: "Oh, do tell me all about the White House bride, I never was so interested in anything before in my life as in his marriage. I read everything could lind in the papers before and after the wedding about it, and the only fault I have to find about it is that the president did not sooner let'us know positively that he was going to be married, so I could have enjoyed

it longer." She then went on to say how much she ap preciated President Cleveland's course toward her and her late husband, during the illness of the latter and after his death, and said that Gen. Grant had often during his illness spoken feelingly of the president's attentions to him; and had also commended his conduct as a president and said that in many things the Republicans might learn of him with profit.

Postollice Patriarchs.

WASHINGTON, March 15 .- It is said at the postolice department that the venerable James H. Marr, for many years the chief clerk of the first assistant's office, is dange, ously Ill of inflammation of the bowels, from which it is not expected he will recover. Mr. Marr shares with Judge Lawrenson, of the postofice department, the honor of having served the government for a greater term o consecutive years than any of his associates Both gentlemen , were appointed in 1441. during Jackson's administration. Mr. Mar. is eighty-one years old and Judge Lawrenson three years his senior. Mr. Marr's health has been gradually failing for the past year. Each congress makes a provision in its legis lative bill that the salary of the lirst assistant's chief clerk shall be \$2,500 per annum so long as the place is held by Mr. Marr. Upon his death it will be fixed at \$2,000, which as the regular salary attached to the position. The extra \$500 is given to Mr. Murr in recognition of his long and faithful ser-

They were secure in their positions and it has mattered little to them whether Democrats, Whigs or Republicans controlled the destinies of the government. Marshall Jewe.t, of Connecticnt, once jocularly remarked to Mr. Marr, "I suppose, Mr. Marr, you think the department could not exist without you?"

Alexander of Batlenberg.

Washington, March 15-A real live prince, Alexander of Buttenberg in short, late ruler of Bulgaria, will visit "

winter. He will spend a month in Washington, The object of his visit is to secure a wife from among the pretty American girls of whom he has heard so much. The minonicment has created a great flutter of excitement in society eireles. The prince would not oiject to finding a wife worth a substantial dowry of a million or so in her own right, but after all he wishes it understood that beauty is the principal consideration. The prince unfortunitely is poor, but what he lacks in this respect is made up in good looks. Ho is said to be one of the handsomest men in Europe. He is about thirty years of age, and during his reign in Bulgaria p oved himself both a statesman and a warrior of uo mean pretentions.

Sweden's Delights.

Washington, March 15.-Mr. Rufus Magee, United States minister to Sweden, is in the city. Mr. Mageo is delighted with his residence in that country. He describes the people as being the most polite and courteons in their social intercourse of may in the world. The most cordial feeling exists between the king and his subjects. The king walks about the streets of Stockaolm as democratically and as safely as Gen. Grant during his incumbency of the White House did in this city. According to Mr. Magee a policeman's lot in Sweden must be a happy one. During the twenty-two months he has resided in Stockholm there has not been an arrest for drimkeimess, a minder or a tire. There is no country on the globe where human life has so many protections.

Home and School.

There are few subjects of as great importance to the home as the school, and few that receive as little attention by home people. Just why parents should turn over their children, absolutely, to the teacher to be educated morally, physically and intellectually, and consider that their responsibility ended when they have started the children out on the road to the school house, is a query we are unable to answer.

A FALL IN LUMBER.

A Cincinnati Firm Assigns With Liabilities of Over \$100,000.

CINCINNATI, March 15.—George S. Crawford, the large dealer in lumber and owner of the saw mili at the foot of Sixth street, and that just above the city, assigned to Howard Douglass for the benellt of creditors shortly after noon, and scattered consternation broadcast among business men. There was no anticipation of such an event. A rough estimate of the assets piaces them at \$60,000. The liabilities, it is believed, will considerably exceed \$100,000,

Preferences have been made to creditors, as follows: Kirkpatrick & Co., of New York, for \$14,657.37; Third National bank, of Cincinnati, for \$20,118.46; Commercial bank, of Cincinnati, for \$10,500, and George Hen-shaw & Sons for \$1,000. Total preferences, \$47,275.46. The chattel mortgages cover the plant of the mills' machinery, lumber, horses, wagons and stock. The cause of the failure is claimed to be an attempt to do too much business. The immediate cause was the pressure of one of the banks named above.

Advice of a Justice.

NEW YORK, March 15.-Policeman Sands. of the Eldridge Street police station, was in citizens dress in the Bowery, at 2 o'clock Sunday morning, when he saw Edward Mo-Donnell, a barry foilow, grab Emil Lerem's watch. He collared the thief whose companions tried to rescue him. They did not succeed, and the prisoner produced a pistol and fired point plank at Sands. The bullet struck a button on the breast of his coat and gianced off. The policeman disarmed him. At Essex market Justice Murray asked the policeman if he had not clubbed McDonucll, "I did not," was the reply. "Well, you ought to have shot him," said the justice. McDonnell was committed without bail.

Smallpox at Los Angeles.

SAN FRANCISCO, March 15 .- At the request of the Northern Pacific railroad oilcials, the the state board of health started yesterday for Los Angeles to investigate and report the facts in regard to the presence of smallpox in that city. There bave been a multitude of statements and denials on the subject, some alleging that smallpox exists to an alarming extent, and others denying its existence altogether. A good many visitors who have been sojourning in southern California have come to San Francisco within the last few days on account of the seare. A druggist here says that he sent 20,000 vaccine points to Los Angeles list week and had orders for 10,000 more.

Fire in a Grain Mill.

WILLIMANTIC, Conn., March 15.-E. A. Buck & Company's steam grain mill was gutted by the last night. The Hames were discovered at 10 o'clock, and they spread rapidly. The building was in a district fuil of wooden buildings and fears were entertained that the insiness center would be burned. The fire was gotten under control, with the loss of the steam mill and the Willimantic Electric Light company's works. The Daily News office was badly damaged, chiefly by water. Buck's ioss is \$15,000 or more. His insurance is \$11,500. The other losses are un-

Quick Work.

New Castle, Ind., is a place of only 2,500 Inhabitants, yet her citizens and business men are a lively, go-ahead people. Not many days ago a committee of them started out to raise enough money to sink a natural gas well. They were were just two hours and twenty minutes in raising the sum required. The well was sunk, plenty of gas was found, and the place is now enjoying a healthy boom. Charles 11. White is endeavoring to raise money to sluk a well near this city. When one considers the advantages to be derived from natural gas, it seems that the necessary sum should be subscribed in a few hours. One hundred or two hundred dollars from twenty or thirty men is all that is needed to carry out the scheme.

TO LADIES

—wнo—

WEAR FINE SHOES:

We have received a line of French Kid Hand-made Button which is superior to any ever sold by us before. The material is strictly first-class and selected with great care. They fit as perfectly as a kid glove. They require no breaking in, but are as comfortable when first worn as an old shoe. To ladies who have tender feet and who have had difficulty in securing a neat-fitting shoe, we can recommend these as being especially desirable.

IN THE WORLD OF LABOR.

HOW THE KNIGHTS OF LABOR PRO-POSE TO EVADE BOYCOTT LAWS.

Parties to Be Attacked Will Be "Commended to the Consideration of the Members of the Order"-I'rospect of

Peace on the N. Y., P. & O.-Strikes. CHICAGO, March 15 .- As a result of the measures which have been introduced into various state legislatures making boycotting a criminal offense, two district assemblies loeated in this city have decided to adopt a method which they believe will outwit the lawmakers and at the same time make the boycotting practice as effective as ever. Hereafter no resolutions will be adopted by these assemblies or circulars issued declaring a boycott on any individual or firm. Instead the productions of the party to be attacked will be "commended to the members of the erder."

As an example a circular sent to the various local assemblies announcing as the opinion of district assembly No. 1 that "the goods made and sold by John Jones are worthy the consideration and attention of the Knight of Labor" will mean that such goods are to be let severely alone, or in other words, boycotted, and the sentence will be just as much a part of the vocabulary of the knights as the word boycott has been. Notices in relation to Armour & Company's ments are now being sent out crouched in this language, and the knights say that lawyers who have been consulted, are of the opinion that the persons responsible for such circulars cannot be caught in the meshes of either the conspiracy law or any anti-boycott legislation.

Will Try to Get Round it.

MILWAUKEE, Wis., March 15 .- Leading members of the Knights of Labor profess no alarm at the bill which has just passed the assembly, enacting that any person convicted of boycotting shall be liable to a sentence of one year's imprisonment in the county jail or a fine not exceeding \$500. They say that even in the event of the measure becoming a law there are many ways in which it can be evaded, and that, moreover, the constitution of the order will enable boycotts to be enforced in a manuer which cannot be reached by the proposed

Wages Advanced.

PHILADELPHIA, March 15 .- The wages of the employes of the Philadelphia & Reading Railroad company, in this city, will be increased from 8 to 15 per cent. The increase begins to-day, and will affect about 500 men, exclusive of those at Fort Richmond and the freight and coal handlers at the deputs. This action of the company is the result of a conference which was heli on Saturday, between an arbitration board representing the employes and General Superintendent Sweigard. It is understood that a similar advance of wages will be granted the employes at other points along the road.

Miners' Troubles at Peorla, Illinois.

Peoria, Ill., March 15, -The colored men from Grape Creek say the coal operators brought them to Peoria under false pretenses, claiming that the strike was over and that there was plenty of work for honest workers. On their arrival they found the men on a strike, and many of them, being Knights of Labor, hate to enter the mines. They are here penniless, and would not be re-engaged if sent back to Grape Creek. The trades assembly appointed a committee to collect funds for their aid. All hands are quiet, but the situation is critical.

N. Y., P. & O. Trouble.

Youngstown, March 15. - There is no change in the status of the striking yardmen of the New York, Pennsylvania & Ohio, Pennsylvania, and Pittsburg & Western lines. A committee of New York, Pennsylvania & Ohio yardmen from Cleveland and a committee here held a conference with Superintendent O'Brien this morning with closed doors. The probability is that all existing difficulties among the New York, Ponnsylvania & Ohio employes will be adjusted and traffic resumed.

At Cleveland.

CLEVELAND, March 13 .- This morning the elerks in the New York, Pennsylvania & Ohio railroad offices were busy registering green hands who have been employed to take the places of the striking brakemen. In auticipation of new men going to work, thu strikers have appointed committees to watch the yards and persuade them to join the union. Trouble is feared if the new men nttempt to run trains.

The Strike Over.

MARQUETTE, Mich., March 15.-The strike of laborers on the South Branch terminated yesterday, About lifty of the leaders and more troublesome strikers were ordered out of the camp and obeyed. All others, together with the new mon, began work to-day at the old wages. The presence of the sheriff's posse of armed men and the determined front of the contractors overawed the hot-headed, who wisely withdrew, and bloodshed was

Asking a Ten Per Cent. Increase.

YORK, Pa., March 15 .- All the Knights of Labor employed at A. B. Farquhar's agricultural works at this place went out this morning on a strike for an increase of ten per cent. promised them some time ago. The advance was made in one department but not in another. There are now about 200 men out and but about 100 left to work in the shops, many of them apprentices. The best mechanics are all out.

Corkhill Gives His Reasons.

PHILADELPHIA, March 15.—The Philadelphia Press contains an interview with Corkhill in reference to his desire to leave the Cincinnati club, in which he says: "There has a general impression gone abroad that I am dissatisfied with the Cincinnati management and the people there. That is an error, and I would like to correct it. I want my release for several sensible reasons. In the first place my business in Camden, though not large, is steadily increasing, and needs more of my attention. By signing with the Athletic club I can attend to business, except the few weeks we are away on our trips. Secondly, Mrs. Corkhill's health is poor, and Ciucinnati's atmosphere is very injurious to her. For these two reasons alone am I determined not to play in any city except Philadelphia."

Due Got Away.

Coshocton, O., March 15 .- Between 400 and 500 persons indulged in a circle fox hunt in Keene township, Saturday. Captains only were permitted to carry guns. Only three foxes were in the final circle—one of which escaped.

GOOCH'S

SYRUP

OF WILD CHERRY, TAR, CLYCERINE, ETC. WILL CURE CONSUMPTION

We have the gratifying fact to know that it can be cured with GOOCH'S MEXICAN STRUP. In the system, we can procure the organization of this food material so that through the process of electric sffinity it may take it since in the system, we can cure the disease. This is just what this Syrup does it at once stops the progress of the disease by preventing the further supply of luberculous matter, for while the system it ander its infinence all nourishment is organized and assimilated. It thus controls Cough, Night Sweats mit all other symptoms of Consumption. Consumption is one of the most loadshome and terrible of si at all diseases, and makes the life of the poor consumptive a hell on earth. Until recently that terrible disease has been considered an affliction beyond the reach of medicine; but a new era in the management of all diseases seems to be dawning upon the scientific medicial would, and, since many distinguished divisions have acknowledged that consumption can be cured, few there are who altempt to composer hear opinion. To those singled out as victims to that fatal malady, we offer a remedy sure in its result at the grade health to their poor weakened frames, and joy to the hearts of their friends.

Consumptives, because all other things fall, believe not that MEXICAN SYRUP will. Not a single sufferer need perish if he or she will take GOOCH'S MEXICAN SYRUP in time. A cough is unlike any other symptom of disease. It stands a conspirator, with hireatening vice, menscing the health and existance of a vi all organ; so commence at once at the first indication of a couph. TRY 17, you who suffer, and see convinced. Do you want to be saved from a consumptive's grave? Then make one more trial. This centerly by one single bottle; and never give way to dispate till you are certain there is make the remained of the process of the pro
